Description

Cutwater Boats are built in the United States near Seattle Washington, the gateway to the Alaska Inside Passage. The unique blend of big boat luxury and features offered in a 32' LOA package defines a new and exciting segment in the Australian power boat market. Featuring an advanced stepped hull design and single shaft drive Volvo diesel, the Cutwater 28 offers excellent economy, even when cruising above 20 knots of boat speed. Manoeuvrability is a breeze thanks to bow and stern thrusters which enable this vessel to spin and move in a sideways direction to park. The C28 forward stateroom, with its convertible V-berth, television and private head with shower, offers exceptional privacy and comfort. The C28 adds the convenience of a mini-galley in this space, complete with sink & microwave, to create a welcoming after-hours retreat

Features

Propeller	3-Blade Brass
-----------	---------------
